

introduction

Photography isn't the only way to capture the world, but it certainly is one of the most effective. Look no further than the nearest social media feed, news station, magazine article, or book cover to see it – **photographs have power**. If you want to harness that power and learn how to take the best possible photos, welcome to “Photography Basics: The Beginner’s Guide.” This comprehensive tutorial explains the fundamental concepts you should know about photography from start to finish.

Camera settings: 105mm focal length, 1/400 second shutter speed, aperture of f/4, and ISO 280
